Two artworks; the first completed as a gift to a friend and the second completed as a commission. Both pieces are designed

to invoke a sense of tranquility and belonging. I find drawing artworks like this to be very calming as well!

Fursantara's First Furmeet

Yorikou Tanzana

Fursantara is a furry community from Indonesia. Community owner Rayytra held the first furmeet at Grand Indonesia Mall Jakarta on June 23rd, 2024. This community basically focused on making this furmeet a comfortable place for furs from all across Nusantara Archipelago. It has become a place to connect with each other, express oneself, and grow together to build a sanctuary for all furry circles in Indonesia and outside Indonesia.

As an artist, I am very passionate about making art pieces of my fursona, Katroo (hey, it's Rool), and many of my friends' fursonas. I drew this art piece a little while back during Pride 2024. I wanted to show, in my country (and other countries) that

forbids such freedom of individuality, that self-acceptance is the first step to self-love. Even hidden from the people around you, I find that expressing oneself through furry art has made not only an escape from reality but a sense of belonging.

In this art piece, Katroo is adorned in traditional Malayan Batik, holding the demisexual flag (my sexuality), and three Bunga Kemboja can be seen. Minor details I like to highlight are the bandages around Katroo and also the details and markings on the body.

He bought his guitar in high school on a whim. He was a beginner and maybe should've stuck with a Strat, he kind of regretted it but has still been using it all this time.
 Guitar's body has gotten a bit sunburned.

He lifts his bangs and wears contact lenses during their live shows to get pumped up.

GEAR USED
Received sticks that I don't really know: Pearl 104H Funky Sueyoshi Model

For now, my own decent sticks: Pearl 106AC Shuichi "Ponta" Murakami Model

He has no particular strong preference but feels more comfortable with thicker drum sticks. He uses the drum set available in the studio.
 For personal practice, he sometimes goes to the studio or plays drums in his room.

He likes T-shirts that he doesn't really understand. His favorite food is grilled chicken skin skewers (with salt sauce).

He is probably top-tier in both gear and skills. He owns a 5-string bass, mostly for home use, and he says transporting it is a hassle due to its weight. He also plays bass in an off-campus band and frequently engages in gear talks with Yuki.

He is often seen as scary due to appearance and skills, yet he's surprisingly humorous and friendly.
